

Plant for Performance and Grow with Confidence.

**SATISFACTION
GUARANTEE**
100% with replant policy.

Product Benefits

Protects yield potential by improving:

- » Nutrient use efficiency
- » Drought tolerance

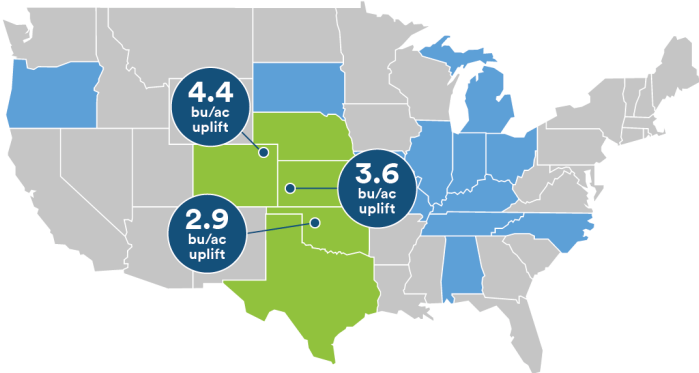

Drought Stress during flowering and grain fill:
average from 2 years and 83 data points

How it works

- » Improves bioavailability of nutrients, including sulfur, supporting root and plant growth
- » Sulfur in wheat improves moisture utilization, nitrogen efficiency, and lodging
- » Improves root growth supporting plant tolerance to drought

biotrinsic™ results show strong performance across winter wheat geographies

-  Research and testing locations
-  Recommended geography

A wide range of variables affect product performance, your results may vary. Product may not be available in all areas.

Plant for Performance and Grow with Confidence.

What makes biotrinsic™ different

biotrinsic™ consists entirely of endophytes. This means that it lives inside the plant and works from within the plant tissues. It doesn't just live in the soil. biotrinsic™ delivers a range of benefits throughout the season:

- Helps mitigate drought and heat stress
- Greater efficiency of water use
- Nutrient use efficiency
- Supports conditions for root and plant growth

From Plants for Plants

biotrinsic™ comes from plants and is not discovered in a lab. It's an all naturally occurring microbe that has been extracted from plants thriving in stressful conditions. We isolate microbes that are abundant in plants that are thriving under stress while other plants around them are not. This allows us to tailor our products to a specific crop and set of stresses.

Probiotics for Plants

By using endophytes, the plants have naturally selected to incorporate these into their own tissue. We apply them at a high concentration to maximize the benefit.

Product details

Active Ingredients	Product	Pkg Treats	Pkgs/Case	Case Size/Pail	Case Treats	Unit Measures	Application Rate	Shelf Stability	Planting Window
<i>Cladosporium tenuissimum</i> Min 1.0 x 10 ⁶ CFU/g	biotrinsic™ WN29 FP	50 units	5	5x1x50	250 units	50 lbs	Wheat and Other Cereals: 1.0 vol oz / CWT	12 months	90 days
		200 units	1	Pail	200 units	50 lbs			
		1000 units	1	Pail	1,000 units	50 lbs
