

Farm Records for Carbon Harvest

A key part of credit generation are farm records for fields with qualifying practice changes. Your first year in the Carbon program, you'll need to provide farm records from the previous 3 to 5 years. After that, you'll only need to enter information on the current season. This full picture of each field's history provides the information needed to quantify the soil carbon and get you paid for high quality registry-issued carbon credits. You are required to submit documentation on your specific practice change. During the Review Feedback step, we might ask for additional documentation to maximize credit production for your operation.

EXAMPLES OF DOCUMENTATION FOR PRIMARY FIELD EVENTS

EVENT	KEY INFORMATION	Farm Mgmt. Software or Machine Data Reports	FSA 578 or Crop Insurance Reports	Application Invoices or Fertilizer Receipts	Production Report	Scale Tickets and Transaction Receipts	In-Field Photos (Geo-, Time-Stamped)	NRCS Reports	Other Mgmt. Records or Plans
Planting	<ul style="list-style-type: none"> • Crop Type • Planting Date 	✓	✓				✓		✓
Fertilizer	<ul style="list-style-type: none"> • Fertilizer Type • Application Date • Application Rate • Application Method • Inhibitor 	✓		✓				✓	✓
Harvest	<ul style="list-style-type: none"> • Yield • Harvest Date • Harvest Method (Reduce Management) • Failed Crop Date 	✓	✓		✓	✓			✓
Tillage	<ul style="list-style-type: none"> • Tillage Date • Tillage Equipment • Tillage Depth 	✓					✓	✓	✓
