Approved Seed Treatment Packages

Indigo’s proprietary collection of seed treatments powered by the world’s beneficial microbes contains live organisms that can be harmed by some commercially available seed treatments. The following treatment packages have been reviewed by Indigo R&D for compatibility and compatible packages can be safely used in conjunction with biotrinsic™ by Indigo® products. Use of any chemical seed treatment other than the compatible treatments on this list could risk damage to the Indigo microbes and can negatively impact product performance. Please consult with Indigo if there are questions on compatibility of specific chemical seed treatments.

biotrinsic™ M37 FP

Approved Chemistries	Planting Window (days)
Untreated	90
Apron XL®	30
AV-1011®	30
AV-5055	30
CruiserMaxx® Rice	90
